MEMORANDUM FOR: Chief, Forces Division, ORR

ATTENTION: [redacted] Defensive Missiles Systems Branch

THROUGH: Chief, Requirements Branch, Reconnaissance Group, OCS

FROM: Chief, Photographic Intelligence Division, CIA

SUBJECT: Suspect SA-2 Site, Nyiregyhaza, Hungary

REFERENCE: (a) Requirement C-R[redacted]
(b) CIA/PID Project [redacted]

1. This memorandum is in response to your requirement dated 30 October 1964 requesting a search within a 25 mile radius of Nyiregyhaza, Hungary for SAM installations.

25X1D

2. A suspect SAM site was located at 47-59-45N 021-44-00E, approximately 3.5 nm northeast of Nyiregyhaza, Hungary. The suspect site was first identified on [redacted] and was not present on [redacted] No usable photo coverage of this area exists between Missions [redacted]

3. The suspect site appears to be in an early stage of construction. It consists of a circular area approximately 500 feet in diameter, with extensive ground scarring within the circular road. No equipment can be identified in the area, nor can individual positions be identified. Two undercleared roads lead from the suspect SAM site to an area containing four large buildings and two smaller buildings. The functions of this area, located approximately 1,600 feet southeast of the suspect SAM site, are undetermined. No security measures are evident in the building area or at the suspect SAM site.

4. No other SAM facilities were identified in the course of this search, however approximately 15 percent of the search area was obscured due to scattered clouds throughout the area.

5. All measurements have been made by the CIA/PID project analyst. They should not be construed as being mensuration data compiled by the NPIC Technical Intelligence Division.

6. The photo analyst on this project is [redacted] who may be contacted on extension [redacted] should you have any further questions regarding this project.
